IEP | ENERGY PETROLEUM INSTITUTE

IEP ATEX

(1) # EU-Type Examination Certificate

(2) **Equipment or Protective Systems Intended for use in Potentially Explosive Atmospheres**

Directive 2014/34/EU

(3) EU – Type Examination Certificate Number: **IEP 17 ATEX 0510**

(4) Product: **Gas Actuators, Type GK, GR**

(5) Firm Name: **Vastaş Valf Armatür Sanayi Ticaret A.Ş.**

(6) Firm Address: **Organize Sanayi Bölgesi 2. Cad. No: 20-22 Çerkezköy/ Tekirdağ, Türkiye**

(7) This product any of acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.

(8) The IEP Uluslararası Enerji Petrol Gözetim, Sertifikasyon ve Teknik Hizmetler Organizasyonu Tic. Ltd. Sti., notified body number 2284 in accordance with Article 17 of the Directive 2014/34/EU of European Parliament and of the Council, dated 26 February 2014, certifies that this product has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of products intended for use in potentially explosive atmospheres, given in Annex II to the Directive. The examination and test results are recorded in confidential Report Nr: IEP.Rp.Ex.10-1107 date 30.03.2017.

(9) Compliance with Essential Health and safety requirements has been assured by compliance with ;

EN 13463-1/2009 ; EN 13463-5/2011 ; EN 60079-0/2013

(10) If the sign " X " is placed after the certificate number, it indicates that the product is subject to Specified Conditions of Safe Use specified in the schedule to this certificate.

(11) This EU-Type Examination Certificate relates only to the design and construction of the specified product in accordance to the directive 2014/34/EU. Further requirements of the directive apply to the manufacturing process and supply of this product. These are not covered by this certificate.

(12) The marking of the equipment or protective system shall include the following:

Ex II 2GD c II T4

(13) Schedule

(14) Certificate Nr: **IEP 17 ATEX 0510**

(15) Description of Equipment;

Gas actuators are a valve actuator which is designed to be used for automatic operation of line valves, and operates using line pressure (natural gas). It can even operate full-automatic way in all weather conditions where nobody and no electric power exist.

Various types are available depending on operating conditions.

Scotch yoke mechanism converts linear motion which comes from pneumatic cylinder to rotary motion required for valve operation.

Gas actuators consist of mechanical and electrical equipment. Some types of solenoid valves work with the opening and closing system. Heat and pressure sensors are used in gas actuators. If the control boxes are mounted on the actuator, Electrical control boxes must comply with the ATEX Directive.

The energetic restraint barriers must be used for the pressure and temperature sensors.

Technical Parameters:

Type	: GK, GR
Working Temperature	: -29 to +80 °C
Pressure	: 12 to 100 bar
Size	: NGJ, NG0, … , NG7
Torque	: 400 ~ 600000 Nm

(16) List of Documentation:

- Gas actuators user manual : 42 pages, dated 20.12.2016
- Component Lists : Part – 5 dated 11.05.2016
- Mounting Pictures and Technical Drawings : Part – 4 6 pages
- Certificates and Test Reports : Part – 5/ 7 137 pages
  - Risk assessment reports, dated 18.04.2016
  - Operating and performance test reports, dated 22.08.2014
  - Cleaning, painting and inspection test report, dated 12.02.2016
  - Pressure Analyses, dated 23.09.2016
  - Final and inspection report, dated 21.05.2014
  - Radiographic examination report, dated 25.01.2016

(19) Certificate Nr: **IEP 17 ATEX 0510**

(20) Essential Health and Safety Requirements:

20.1 Are included in standards, which are mentioned in clause (9) of this certificate. The products were approved in accordance with above mentioned standards and manufacturer's instruction.
20.2 At the installation and the operation of the gas actuators has to be observed manufacturer's manual 42 pages dated 20.12.2016.
